G

The Group has assessed the and is not aware.

Baupapier

Under the historical cost convention, assets are measured at the amount of cash or cash equivalents paid on the

9. Financial Instruments (Continued)

The effective interest rate of a financial asset or liability is the rate that discounts the estimated future cash flows of the financial asset or liability on an internal rate of return basis of all contractual terms of the financial asset or liability, including fees and costs that are an integral part of the instrument.

The effective interest rate of a financial asset or liability is calculated on an asset or liability-by-asset or liability-by-liability basis.

9.1 Carrying Amount of Financial Instruments

4. The carrying amount of a financial instrument is the amount at which the instrument is recognized in the balance sheet.

These financial instruments are measured at amortized cost when the instrument is held to maturity and the instrument is a debt instrument.

The carrying amount of a financial instrument is the amount at which the instrument is recognized in the balance sheet, less any impairment losses recognized in the income statement.

The carrying amount of a financial instrument is the amount at which the instrument is recognized in the balance sheet, less any impairment losses recognized in the income statement.

9. Financial Instruments (Continued)

9.1. Cash and cash equivalents (Continued)

9.1.2 Financial

measured using the effective interest method, changes in fair value are recognized in profit or loss.

4

9.2. Impairment losses

Impairment losses are recognized in profit or loss when there is objective evidence that a financial asset or group of financial assets is impaired. Impairment losses are measured as the difference between the carrying amount of the asset or group of assets and the present value of estimated future cash flows (excluding future credit losses that have not yet been recognized) discounted at the financial instrument's original effective interest rate.

Initial recognition of the credit risk on the financial instrument has increased significantly since initial

account any guarantee obtained by the Group)

3. Financial Assets (Continued)

3.1 Financial Assets

A financial asset

is any asset that meets the following conditions:

- (a) the financial asset is a contractual right to receive cash or another financial asset;
- (b) the risks and rewards of ownership of the financial asset are transferred to the holder;
- (c) the asset is a financial asset.

5/11/2011

13.2. **Exchange Rate** (Continued)

13.2.1. **Exchange Rate**

For a long-term contract, the exchange rate is constant. Consequently, the exchange rate is not a risk factor.

For a short-term contract, the exchange rate is not constant. The difference between the exchange rate at the time of the contract and the exchange rate at the time of cash payment is the exchange rate risk.

13.3. **Exchange Rate**

13.3.1. **Exchange Rate**

13.3.1.1.

Long-term contract

Short-term contract

Exchange rate risk

14. INVESTMENT PROPERTIES

Investment properties are those properties held by the Group and its subsidiaries for long-term appreciation, building

or rental. The cost of investment properties is measured at acquisition and includes the purchase price and its costs of acquisition, including the purchase of land, development costs, and other costs incurred in bringing the property to the condition necessary for its intended use.

19. Investment properties

The Group assesses investment properties, assets with finite life and intangible assets with finite life at the end of the reporting period. Their carrying amount is estimated based on the fair value less costs of disposal.

The Group assesses the recoverable amount of investment properties, assets with finite life and intangible assets with finite life.

20. Derivatives

21. Cash and cash equivalents

Cash and cash equivalents include bank balances and short-term deposits and contracts for sale of electricity.

22. Equity

22.1 Authorized capital

The Group's authorized capital is 100 million shares with a par value of 10 Euro each. The Group has issued 99,999,999 shares with a par value of 10 Euro each.
